Cincinnati, April 22.—The danger line was reached here Monday in the Ohio river flood which started at the headwaters last week and did so much damage at Pittsburg and intermediate points. Backwater along the Licking on the Kentucky side inundated parts of Covington, Newport and other suburbs. Mill Creek valley is full of water and doing damage in the west end of Cincinnati. A similar condition exists in the east end and along the Little Miami bottoms. But the worst condition is along the public landing and in the lower part of this city where sewers are blocked and cellars are filled with backwater. A stage of 45 feet causes damage in this section and that stage was reached Sunday evening. At 53 feet trains cannot enter the Grand Central depot; at 56 feet the baseball park is flooded, and at 58 feet the races at the track at Newport must stop. Most of these limits came Monday. The crest of the Pittsburg rise is not due here till Tuesday, but the extent of it has been closely anticipated and preparations are made accordingly to prevent damage.

At 10 o'clock the Ohio reached 49 feet, just one foot from what is called the danger line, although damage was incurred at other stages. The Grand Central depot can at this rate be used until 10 o'clock Monday night, but the railways entering it arranged for stopping at and starting from the Eighth street station. Reports from up river indicate rain at most points, and the river rising as the Pittsburg crest meets the flood of the lower river tributaries. The situation here and in the lower Ohio valley is serious.

Considerable relief was felt when the danger line of 50 feet was not reached till after 2 p. m. It was expected before noon. The weather bureau announces that the Ohio river here will continue rising two more days, but at a lower rate. The rate of only two inches per hour now extends up to Ironton and Portsmouth, O., and to Ashland and Catlettsburg, Ky., from which points it takes a day for the water to reach here. It requires two days from Point Pleasant for the rise there to reach here, and its rate of rising is decreasing. The weather bureau finds the lower Ohio open, so that the flood is having easy access into the Mississippi, and the highest stage now predicted for Cincinnati is only 58 feet. The hourly reports have been stopped.

Mayor Fleischmann and city officials made a tour of inspection in patrol wagons around the flooded districts and afterward took a boat. Relief will be provided for all in need of it. The Chicago ball club arrived, but the water lacks only 10 inches of flooding the ball park, and there will not likely be any games this week. The races on the Newport track proceeded Monday afternoon, although the course was very sloppy. While some of the railways may be unable to reach their depots none will be shut out of the city, and traffic from suburban stations will proceed as usual. The Cincinnati, Portsmouth and Virginia branch of the Norfolk and Western is badly washed out east of this city, but its terminals here are all right. At Newport, Ky., there was 53 feet at noon, the gauge there being deeper than on the Cincinnati side. A great portion of Dayton, Ky., is submerged.

At Lawrenceburg, Ind., the 50-foot danger line was reached at noon, and a general inundation followed.

At Parkersburg, W. Va., Ann, Julian and Market streets are under water, and the first floors of business houses are filled with water. In the Riverside and Southside suburbs the water is in the second stories and hundreds are homeless. Mayor Vandervort has appointed relief committees and appealed to the public for funds.

Damage at Pittsburg.

Pittsburg, April 22.—While western Pennsylvania was fairly out of the clutches of the flood Monday morning fears of a quick repetition of disaster, and perhaps on an increased scale, seemed to haunt the people. Weather conditions were not reassuring, as again began raining in Pittsburg, and advices from headwaters of the Allegheny showed a renewed rise with continued downpour. Warmer temperature acting on the snow was a factor that also caused some apprehension. The waters at this point have been steadily receding since 3 o'clock Sunday afternoon, but the retreat has been very slow indeed. It is impossible to fairly approximate the loss resulting from the high waters. Estimates vary from \$1,000,000 to \$3,000,000, but the first figure will probably come nearer the correct amount. Fully 25,000 idle employees in two days of enforced idleness will lose \$200,000 in wages. Damage to plants along Penn avenue and to the vast Westinghouse manufacturing in Wilderming, with the shutdown of other big establishments at Rankin and boroughs in the Turtle Creek valley, easily mounts up to \$500,000 more. The aggregate loss to railroads is estimated at \$100,000. Property in Allegheny has suffered injury to an equal extent. Marshalling with these the manifold items of damage to other adjacent communities the total of \$1,000,000 can easily be reached. The mills and factories along the river fronts will probably be able to resume Tuesday. Railroads are rapidly getting into shape and trains are endeavoring to make schedule time. At 11 a. m. it ceased raining here, but was still cloudy and threatening. The Allegheny registered 20 feet 9 inches and the Monongahela 22 feet. Both rivers were falling at the rate of about 2 inches an hour. The Allegheny rose about 2½ feet at Oil City since, but as this water will not reach Pittsburg until some time Tuesday river men have little apprehension of another flood here at this time.

Crisis Is Past.

Pittsburg, April 22.—Forecaster Ridgeway of the local weather bureau says there will be no recurrence of the flood. All three rivers will continue to fall and the rise at the headwaters is not enough to affect the fall in the lower streams. It would take a steady rainfall of 24 hours, he said, to check the fall in the rivers, and from present indications that is not likely to occur.

Weather Bureau Bulletin.

Washington, April 22.—The weather bureau at noon issued the following special river bulletin: During the last 24 hours the Ohio river has fallen 4.4 feet at Pittsburg and 5.8 feet at Davis Island dam. It has risen 4 feet at Parkersburg, 7.1 feet at Cincinnati and 4.4 feet at Louisville. The river will pass the below danger line, 22 feet, at Pittsburg. The crest of the flood passed Parkersburg Monday. The river will pass the danger line, 50 feet, at Cincinnati tonight, and the crest will pass that place tomorrow. At Louisville the danger line of 28 feet will be reached by Tuesday night. There are no present indications of a change in the conditions sufficient to check the falling waters over the Upper Ohio region.

Snow in Tennessee.

Knoxville, Tenn., April 22.—Cold weather continues here, though indications for warmer weather prevail. This is the coldest point south of St. Paul, Minn., according to the weather bureau reports, the temperature being 36 at 7 a. m. Kingsport and Rogersville report many orchards ruined on account of heavy snow breaking the limbs. Bristol and other upper east points report snow still falling. A landslide at Brown's Cut on the Norfolk and Western railroad near New River, Va., has delayed traffic on that road, all the trains being annulled.

Waning in West Virginia.

Huntington, W. Va., April 22.—The Ohio river was 53 feet at 10 a. m. and rising 1½ inches an hour. All tributaries in the central and southern portion of the state are falling at headwaters, but the Guyandotte, Twelve Pole and Big Sandy are rising within 40 miles of the mouth. News of suffering and great damage continue to come from many points along these streams. No loss of life was reported Monday. The Ohio will likely not exceed 55 feet here. Numerous neighboring towns are flooded.

Cleveland, April 22.—For the first time in more than 48 hours trains began arriving in Cleveland Monday on schedule time from the east. Between this city and Buffalo, where the storm wrought such havoc to the telegraph and telephone wires, a limited number of wires have been restored and placed in service. Between Cleveland and Pittsburgh all direct telegraph lines are still down. The suburban and city electric railways were operated with practically no delay to traffic.

Suffering at Huntsville.

Huntsville, Tenn., April 22.—There is from four to six inches of snow on the ground and still snowing. Enough snow has fallen since Friday to make it 12 inches deep if none had melted. It is very cold and much fruit is killed. A full grown cow was frozen to death in the streets. Huntsville is located on the top of Cumberland mountain near the Kentucky line.

Prospect at Paducah.

Paducah, Ky., April 22.—The river is rising rapidly with 30 feet on the gauge. The Tennessee and Cumberland are pouring heavy volumes of water into the Ohio, and rivermen predict the biggest flood in years. Much damage has already been wrought to corn in the lowlands. In a few days miles of bottom lands in which corn has been planted will be submerged.

At Louisville.

Louisville, April 22.—The river at this point at noon was rising an inch and a half an hour. It is believed by old rivermen that a stand will be reached by Wednesday, and that while there will be a very big river there will be no serious damage. They were sufficiently warned, however, and are amply prepared for the worst.

Cotton Nipped By Frost.

Atlanta, Ga., April 22.—Low temperatures, in some sections injurious to cotton and other growing crops, prevail over the Southern states. The weather bureau reports light frosts in the vicinity of Jacksonville, Meriden, Miss., and at Charleston, S. C. Snow is reported at Gainesville, in northeast Georgia, the mountain tops being capped with white—an unusual sight at this time of the year. Albany, in south Georgia, reports the estimated damage to cotton at 50 per cent, and that watermelons and canteloupes have been injured 25 per cent. Fruit in that section is apparently safe. Americus, in southwest Georgia, wires that considerable replanting of cotton will be necessary in that section.

All Over at Elmira.

Elmira, N. Y., April 22.—The Chemung river is rapidly receding and the railroad trains are running more regularly. The damage done here was confined mainly to goods in the cellars of stores. The river reached a height of 12½ feet above low water mark. Considerable damage from the floods is reported from Tioga and Cowanesque valleys in Tioga county, Pa. Barnes' tobacco sheds and other out-buildings were washed away and farm-lands were inundated.

Tunnel Caved In.

Bristol, Tenn., April 22.—The Eggleston tunnel on the Norfolk and Western railroad between Radford and Bluefield, has fallen in, thereby stopping traffic on the main line of the road. The tunnel is about three-quarters of a mile long. All traffic through and from Columbus, O., end is going via Bristol. The heavy snow and rains cause the tunnel to cave in.

Mohawk Breaks a Record.

Amsterdam, N. Y., April 22.—The Mohawk river has risen 10 feet since Saturday night and is still rising, already being higher than in many years. An abutment of the West Shore bridge at Patersonville gave way. Some of the mills along the Chukanunda creek are shut down on account of the flood.

Top Notch at Marietta.

Marietta, O., April 22.—At noon the river was 40 feet and rising an inch an hour. No trouble has been experienced from the Muskingum river. Only one foot more is expected. Five glass blowers of the Royal works were captured in the Ohio river and one of their number, Joe Everetts, was drowned.

Sheltered in Schoolhouses.

Portsmouth, O., April 22.—Merchants in the lowlands are submerged and hundreds of residences have been abandoned in that vicinity. Public schools were dismissed so as to use the buildings for sheltering the homeless. The schools were dismissed at Ironton for the same purpose.

Telegraphic Impediments.

New York, April 22.—The principal difficulty the telegraph companies are having in forwarding messages to the region of the storm is with Cleveland. So far as known no points of importance are cut off entirely, but a number of places in northern Ohio can be reached only indirectly.

Effect on the Mississippi.

Memphis, April 22.—The Mississippi river at this point is at a stand, having not yet felt the effect of the rise above. Local Weather Observer Emery predicts the river will go one foot above the danger line, 33 feet, about a week hence.

Genesee River Rising.

Rochester, N. Y., April 22.—The Genesee river has risen over three feet at the rate of an inch an hour. Advices from up the valleys say the lowlands are again submerged, and several streams are over their banks.

CARTER MU T LINGUISH.

Supreme Court Refuses to Admit I
To Bail—Date of Adjournment.

Washington, April 22.—The United States supreme court denied the application of former Captain Oberlin M. Carter to be admitted to bail. The court contented itself with an announcement by the chief justice of the result of its deliberations. No reasons were assigned and no reference was made to Carter's motion to strike the brief filed by Solicitor General Richards from the files of the court.

Chief Justice Fuller announced the final adjournment of the supreme court May 27. The call of the docket will be suspended Friday and the court will take a recess Monday until May 13. No intimation has been given by the court as to when the decision of the insular cases may be expected, or whether they will be decided at all before the final adjournment.

VESUVIUS AROUSED.

Smoke, Ashes and Lava Belched From
The Volcano's Crater.

Paris, April 22.—Mt. Vesuvius is again in a state of active eruption and many people, scientists, students and American tourists are leaving Paris by every train for Naples.

The first signs of disturbance were observed a week ago, when for three days columns of smoke issued rapidly from the crater in great volume, towering high above the volcano. Then came occasionally showers of cinders, sometimes sprinkling the country several miles around. Now lava is beginning to run.

The fire at the crater is very intense at night, illuminating the surrounding region beautifully. Only two slight tremors of earthquake have been felt.

British Colliers Furious.

London, April 22.—At a well attended meeting of colliery owners, miners and shippers, respectively in the various coal centers, the export tax on coal was vigorously denounced and threats were made to co-operate and suspend the coal trade of the United Kingdom unless the impost was withdrawn. At the same time the shipping of coal is being resumed on the strength of the promise of Sir Michael Hicks-Beach, chancellor of the exchequer, to consider the exemption of contracts made prior to April 18.

Alleged Swindler Arrested.

London, O., April 22.—George R. Padgett, alias George Vanderson, was arrested at the home of his mother, near McGuffey, O., on a charge of working a produce commission swindle at Louisville, Ky. It is claimed he victimized produce dealers in Chicago, Cleveland, Cincinnati and Columbus by making time purchases under names of reputable firms and reshipping and disposing of the produce at any price. C. L. Bunn, an alleged confederate, was arrested at Indianapolis three months ago. M. R. Nash, another alleged confederate, is still at large.

Ohio Miners Strike.

Wheeling, April 22.—Every mine in the Fifth Ohio subdistrict, which includes Belmont, Harrison and Jefferson counties of Ohio, and the four West Virginia Panhandle counties, is idle, the strike order having become effective. Several individual operators are preparing to meet the miners' terms, last years, and the Eastern Ohio Coal Operators association may have to follow their example.

Delicacies Were Doped.

Denver, April 22.—Chemical tests have shown that the delicacies sent to Joseph A. Hennelt, a prisoner in the county jail, contain enough cyanide of potassium to kill all the prisoners in the jail. Hennelt is the principal witness against J. K. Barr and Bessie Hodge, who are charged with having robbed Mrs. Flora Betts of \$7,000 worth of diamonds recently.

Presidential Appointments.

Washington, April 22.—The president appointed Edward B. Moore of Michigan to be assistant commissioner of patents; Charles O'Neill, to be chief of the bureau of ordnance with the rank of rear admiral; John Barrett of Oregon, to be delegate to the international conference of American states to be held at City of Mexico.

Not Related to the President.

Washington, April 22.—It is authoritatively stated that Duncan E. McKinley is to be appointed assistant district attorney for the district of California. The appointment will be announced shortly. Mr. McKinley is not a relative of the president.

Skiff Capsized.

Pittsburg, April 22.—A skiff containing three persons who were catching driftwood in the Ohio river at Legionville, Pa., capsized, and two of the occupants, W. H. Barnhart and Thomas Holsinger, were drowned.

London, April 22.—Dr. D. K. Tanner, who represented the Irish Nationalists of the middle division of Cork county since 1885, died of consumption at Reading, at the age of 51.

CAMBRIDGE TRAGEDY

Harvard Professor Being Tried on a
Charge of Murder.

HIS BROTHER-IN-LAW THE VICTIM.

Eastman Declares the Killing Was
Accidental But the Dying
Man's Words Accuse Him
Of a Foul Crime.

Cambridge, Mass., April 22.—The trial of Charles R. Eastman on charge of having murdered his brother-in-law, Richard H. Grogan, at Cambridge last July, was begun Monday. The case has attracted wide attention.

After a hearing several months ago Eastman was discharged, but later an indictment was found by the grand jury before which the case was taken by the district attorney.

The defendant is an instructor at Harvard university. He has claimed that the shooting of Grogan was accidental, but the victim with his dying breath is said to have accused Eastman of murdering him.

During the morning of July 4 Eastman and Grogan were together in the back yard setting off cannon crackers and practicing pistol shooting at a target. Dinner passed off peacefully and happily to all outward appearances. After dinner the two visited the swimming contests at Captain's island, Charles River, a quarter of a mile from their home. They only remained to see two matches and went home. About 5 p. m. they began target practice again.

It was about 5:30 when the tragedy occurred. Grogan stood facing the target prepared to shoot. Eastman was standing to one side with an old-fashioned five-shot revolver which had not been fired for a year. He was trying to move the barrel of the revolver so that one of the cartridges it contained would come under the hammer. While doing so the revolver discharged, the bullet striking Grogan in the breast; Grogan fell to one knee and shouted, "I'm shot." As he fell his revolver exploded, the ball inflicting a flesh wound in Eastman's thigh.

Besides the witnesses who heard Grogan's dying statement, the prosecution, in proving a motive, depends in a great measure on an intensely bitter feeling that is said to have existed between the two men. John R. Grogan, a brother of the victim, tells a story of a quarrel between them, in which they came to blows. He says he separated the men, and as he pushed Eastman back the latter shook his fist at Grogan and said:

"I'll put a bullet through you if I have to wait five years." Ever after that Grogan carried a revolver.

SIX PERISHED.

Hotel Holocaust In West Virginia
Caused by Gas Explosion.

St. Marys, W. Va., April 22.—By the burning of the Commercial hotel here six persons lost their lives. The dead are: Samuel Cunningham, driller, Roxford, Pa.; John George, oil man, Butler, Pa.; Harry Robinson, tool dresser, Corning, O.; Bert Smiley, shooter; Smiley's mate, name unknown, and John Slater, son of Mrs. Slater, proprietress of the burned hotel.

The fire was caused by a gas explosion and the building was rapidly consumed. There were several narrow escapes from death.

Exchanged Shots With Outlaws.

London, Ky., April 22.—The report comes to London that over 100 shots were fired Sunday between the sheriff's posse and the Reynolds gang. So far as could be learned none of the posse were hit. Deputy United States Marshal Hollyfield is with the sheriff with 20 picked men. Judge Blair and citizens of the county are doing all in their power to bring about a surrender. It is stated that the accidental discharge of a gun brought about the shooting, which ceased after two volleys had been fired. Great excitement prevails in the end of the county where the fugitives are located.

Kitchener's Proclamation.

Cape Town, April 22.—Lord Kitchener has issued a proclamation to the effect that any resident in the martial law districts of Cape Colony found in arms, inciting to fight, aiding the enemy or endangering by overt act the British forces, will be tried by court-martial and be liable to the most severe penalties. Such persons may even be shot.

New York, April 22.—Justice Scott, in the supreme court, signed a stay of proceedings in the charge of contempt of court against Stewart M. Brice, councilman, who was sentenced by Justice Scott last week to 10 days in the county jail and to pay a fine of \$473. The stay will be in force pending Councilman Brice's appeal.

DANGER AHEAD.

Mr. Poulton Bigelow, who has just returned to London after delivering a course of lectures at Harvard and Yale, declares that America is heading towards revolution. In an interview cabled to the New York Herald he says:

Commercialism is running riot in the United States. The Yankees are coining their ideas and energies into money. The trust builders are doing the rest. These money kings necessarily exercise a blighting influence on the morals of public servants, they create all manner of temptations and breed all manner of jobbery.

In Washington I found cynical contempt for the Constitution. Corruption stalks through the government. It disgraces the halls of Congress, which are little more than a brokerage shop for the sale of authority to fleece the people. Legislators, department officials and petty public servants of all kinds neglect no opportunity to turn their official prerogatives to profit.

I learned many specific instances of flagrant jobbery, especially in connection with the Philippine war. There are a thousand officials who owe it stealings ranging from very small to very large amounts. They don't want the struggle to come to an end. They would much prefer to see it indefinitely prolonged.

Of course I shouldn't think of reflecting upon men like Messrs. Hay and Tait, but if Mr. Hay were the angel Gabriel and Mr. Tait St. Peter come to earth they couldn't stop the complex, far-reaching system of thievery which prevails in the public service.

President Hadley, I see, denies that he said that a continuance of present tendencies would land an Emperor in Washington in twenty-five years. I don't see why he should desire to deny such a statement. We would better have an Emperor—some one to take a firm stand against the rising tide of official immorality—than to have rulers who have no interest in the government beyond the outcome of the next election. I had rather live under Emperor William than under the vicious tyranny of railway, oil and steel kings.

America needs a thorough arousing of the public conscience. She needs to deliver her from the slavery of capitalism such men and women as delivered her from slavery of human beings. In other words, she needs an epidemic of cranks—cranks like Garrison, cranks like England had in Cobden and Bright.

FOR THE PUBLIC GOOD.

The Information Contained in This Citizen's Statement is Invaluable to Maysville People.

When a resident of Maysville whose statement appears below who has no monetary or other interest in the article which he indorses, who is anxious to do his acquaintances and fellow residents a good turn, who publishes in this paper his experience with Doan's Kidney Pills—that citizen must have good and sufficient reason for doing so. The following should dispel any doubts which may have existed in the reader's mind on this subject:

Mr. P. Gantley, grocer of 314 East Fourth street, says: "The prompt and thorough relief from backache given by Doan's Kidney Pills is the strongest endorsement possible. When backache is caused by the lack of proper action of the kidneys the only reason for continuing to suffer is the want of knowledge of Doan's Kidney Pills. I procured them at J. James Wood & Son's drug store, West Second and Market streets."

For sale by all dealers. Price 50 cents a box. Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S.

Remember the name, Doan's, and take no other.

Kentucky Osteopaths elected the following officers for ensuing year: President, Dr. R. P. Buckmaster, Frankfort; Vice President, Dr. H. A. Thornbury, Cynthiana; Secretary and Treasurer, Dr. H. E. Nelson, Louisville; Trustees, Dr. Adaline Bell, Covington; Dr. Kellogg, Mt. Sterling; Dr. H. H. Darter, Shelbyville.

The number of graduates from the College of Liberal Arts and the College of the Bible of Kentucky University will be larger this year than it has been for some years past. There will be twenty candidates for graduation from the former and twenty-two from the latter.

DEPEW'S WARNING.

He Scores the Snobbish Exclusiveness of the Millionaires,

And Says It Is Doing More To Promote Anarchy Than All Other Agencies Combined.

NEW YORK, April 21.—United States Senator Chauncey M. Depew was last evening the recipient of the tenth successive anniversary dinner given by the members of the Montauk Club of Brooklyn at the clubhouse, the occasion marking the beginning of his sixty-seventh year. After a band had marched single file about the rows of tables two stalwart chefs in their white linen caps and jackets followed, carrying upon their shoulders their customary birthday cake with a huge silver oval cover concealing from view a seven-year-old girl in white. At the guest's table the cover was removed and the little girl jumped to her feet on the large round platter supporting the cake, and repeated several little compliments to the guest of honor. The appearance of the child was a complete and agreeable surprise to the Senator.

In the course of his speech Mr. Depew said:

"Twenty-five years ago there were few railway companies whose capitalization reached \$50,000,000, and I think no industrial corporation existed with a capitalization of \$1,000,000. Marvelous has been the development of corporate combinations and the advance in public opinion in one year, the possibility of the formation in any State, or under any conditions, of a company dealing with one of the greatest necessities of a commercial and industrial people with \$500,000,000 of capital would have placed a Populist in the Presidential chair and a Populist majority in both houses of Congress in 1896. The octopus of the imagination of Populist writer and speaker of October, 1900, was a lamb compared with a lion beside the real octopus of March, 1901. A billion-dollar corporation formed in October might have reversed the November verdicts. And yet, such has been the march of public opinion, owing to the marvelous conditions which have come up in a few months, that the formation of a \$1,100,000,000 company frightens nobody.

"In the highly organized conditions of modern society competition has grown to be the destruction of all but one of the contestants."

Mr. Depew called attention to the gifts of a large number of the wealthy citizens for educational and benevolent purposes, unknown, he said, in any other age or country.

"But," continued the Senator, "there is a section of the very rich who are doing more to promote socialism and anarchy by their actions than all other agencies combined. They aim to hedge themselves about with a social exclusiveness unknown in Europe. London has been long the social center of the world. Genius there finds welcome and recognition in the homes, both city and country, of the proudest of the aristocracy and descendants of the oldest and most distinguished titles among the nobility. But our millionaire exclusives bar the doors and refuse to let in upon a social equality these representatives of intelligent achievement. They seek to make all except the possessors of exaggerated incomes socially second class. The result is seen in the resentment which well informed people are discovering to exist and to be growing among those who educate, who form and who guide public opinion, and whose teachings ultimately crystallize into laws against the holding or devising of great wealth."

A Washington special says that it is expected that President McKinley will announce his appointments for Federal Judge and Marshal of the new Eastern district in Kentucky before he leaves the Capital for his extended trip next week. The appointments have caused the President considerable worry, and he is anxious to get them off his hands. "It is as certain," says this dispatch, "that Cochran will be the Judge as anything ever is in Washington. While ex-Governor Bradley's hard turn-down will hurt the Republican party in Kentucky, no one can deny Mr. Cochran's eminent fitness for the office. While a hard fight has been made on Steve Sharp, he will be the Marshal. The regular Republicans do not want him, but their kicks are of no avail, for the appointment was given to Senator Lindsay for aiding in the passage of the law."

A QUARTETTE OF BEAUTY!

Gauze Muslin.

Made of silk and cotton so deftly woven it is difficult to believe aught but the aristocratic silk found entrance to the loom. Some patterns are richly striped with satin, others with lace, there are many solid colors though the majority have the cool, dainty designs imprinted. This fabric is too handsome for the 50c. class, but that is where wise buying enables us to place it.

Galateas.

The friend ever faithful. Justly noted for its merits in shirts, wrappers, shirtwaists and children's dresses. More colors than the rainbow—many more. Stripes predominate—Fashion's demand you know—but checks both large and small are also represented—also solid colors. Such a little price too—only 15c.

Cotton Crepes.

Five colors—helio, blue, mode, reseda and French gray. Dainty one-half inch satin stripes with one-inch crepe spaces between. Now don't picture ordinary 29c. goods when we tell you that's the price. Fifty cents would not exaggerate the beauty and worth of this material.

Mercerized Foulards.

Long wearing, exquisite designs thirty-two inches wide, all colors, pretty as silk and just 35c. a yard. Isn't that combination worth investigating?

THE BEE HIVE

Up-to-date Merchandising

The people of Maysville, especially the ladies, when in want of stylish and fashionable goods, always come to the BEE HIVE, because they know we are in touch with the New York market, and New York to-day is ahead of Paris. The merchant that buys all his goods at home can not have up-to-date goods to show, as the salesmen from all over the country only show goods they have on hand and not the new materials that come in late. We are determined to show the latest novelties that are out and to please the most fastidious tastes. Our motto shall always be—

Something New and Nobby All the Time!

On account of the large opening trade we are having and our desire to keep new and nobby goods all the time, our Mr. M. Merz found it necessary to leave on Monday for New York on his SECOND SPRING TRIP, and we kindly ask you to watch for new arrivals each day.

IT COSTS MONEY

To Recover a Stolen Horse in Most Cases. A Portsmouth Man's Experience.

[Portsmouth Times.] Oscar Foster returned Friday afternoon from Carlisle, Ky., with the horse that was recently stolen from Carey's run. The man who bought the horse from Banks, the thief, is out \$85 purchase money unless there is something left of the \$78 found in Banks' pocket, after the Maysville lawyers and court get through with it. Under the laws of Kentucky, after a man has been convicted of horse stealing, whatever money he may have after expenses are adjusted, go to the innocent purchaser. In this case Banks employed a Maysville attorney to make an effort to secure his release. Out of the \$78 found in Banks' pocket must be paid this attorney's fees and the court fees. It is safe to say that after this is done there will not be much left for the Carlisle man.

A recapitulation of expenses shows that it cost Mr. Foster \$65 to get his horse back home, and it cost the State about \$50 to land the thief safely in the Scioto County jail, making a total cost of \$115. Banks will plead guilty and the only further expense to land him in the penitentiary will be the court costs and transportation to Columbus. It is apparent that the expense of recovering a stolen horse after it has crossed the Ohio river is more than a first-class horse is worth.

MRS. L. Y. BROWNING,

Wife of Dr. Browning of Mayslick. Passed Away Monday Morning—Funeral To-morrow at 10 o'clock.

Mrs. Henrietta Browning, wife of Dr. L. Y. Browning, died Monday morning at 11 o'clock at the family residence in Mayslick, of consumption. Mrs. Browning's maiden name was Ware, and she was about fifty years of age. Her husband survives her and she leaves one son, Wood, of Mayslick, and one daughter, Mrs. William Turner, of Kokomo, Ind. Many friends throughout the county learn with sorrow of her death.

The funeral will take place to-morrow at 10 a. m. at the residence, Elder F. M. Tinder of Carlisle officiating. Burial at Shannon.

Elder F. M. Tinder, of Carlisle, passed through Maysville Monday on his way home from New Richmond. His meeting at the latter point was a successful one, resulting in several additions to the church.

Revival service at the M. E. Church at 7:30 p. m. Song service at 7:15. There have been twelve additions and conversions during the meeting. Mr. B. K. Muse will sing a solo to-night. Come and hear the gospel.

The marriage of Miss Adelaide Montmullin and Mr. E. M. Hoadley took place at Richmond, Va., Thursday, the ceremony being solemnized at the home of the bride's sister, Mrs. G. B. Wall. The bride is the daughter of the late Dr. J. Montmullin, of Ashland, and is counted one of Kentucky's most charming young ladies. The groom is a son of ex-Governor Hoadley, of Ohio.

The fifty-fourth annual convocation of the Grand Commandery of Kentucky, Knights Templar, will be held in Lexington, Ky., on May 15 and 16 next. Elaborate arrangements are being made to show the visiting Sir Knights and their ladies a royal time. Low excursion rates will be granted. Exercises begin at 9 o'clock on the morning of the 15th and wind up with a reception by Webb Commandery on the night of the 16th.

I Don't Want to Worry My Friends Nor The Public, But I Certainly Am Going to Retire From Business,

And at least want my friends and past patrons who have so generously patronized me in the past fourteen years to enjoy the benefit of getting some of the finest Clothing ever brought to Maysville

AT LESS THAN THE COST OF PRODUCTION!

I have never been the one to sing my own song of praise and will not now, on the eve of my retiring from business, but leave my old patrons the sole judges of [the class of CLOTHING I have always handled. To those who have not had an opportunity to know our Clothing I will ask that you call and look at them. I will soon send what I have left to Cincinnati to be sold to merchants, and many of them may be brought back to Maysville and sold to you at double what I ask for them. Respt.,

RIVER NEWS.

The Crest of the Big Rise Ought to Reach Here To-day or To Night.

The marks here showed a stage of 52.4 feet at 9:30 this morning, with the river still rising about an inch an hour. It was falling as low down as Wheeling yesterday morning and the crest of the rise ought to reach Maysville to-day or by to-morrow morning at the latest.

The water is over Second street at the bridge, and the street car company has skills transferring passengers at that point. Pedestrians have to take the C. and O. viaduct or the L. and N. route. The water has not yet reached the Lexington street connection, and vehicles have to go that route.

W. F. THOMAS, M. W.

R. H. Wallace, Recorder.

Some one has said that the melodrama, "Enoch Arden," which was given at the opera house last evening, that it was "the perfection of art." It has in part been likened to the "sobbing of the sea," and this is true in the opening bars where the water is beating against the coast; and again the melody is happy and sparkling when the voice of the piano speaks of Annie's happy nature. The spirit of the poem was caught to perfection by Strauss, who wrote the music for it, and the interpretation by Mr. Kruger is no less sympathetic. It was a perfect blending of voice and piano, and Miss Curtis held the attention of her entire audience as she brought before them so realistically the lives of those about whom the poem was written. She has a charming voice and presence and never fails to captivate her hearers. The program was opened by Miss Moore and Mr. Kruger in a brilliant duet, a march from the opera "Preciosa." Miss Moore played in a most artistic manner. She is a musician of no ordinary skill and those who heard her playing last evening should be glad that Maysville can claim an artist of her ability. The praise Miss Curtis and Mr. Kruger deserve for the entertainment of last evening has been generously given them. Besides the enthusiastic reception accorded them by Cincinnatians, they have innumerable engagements to render this same number at other places. Maysville is indeed fortunate to have heard these well known artists in this particular work.

PRINCE HENRY'S DEBT

3: ditors Threaten to Float His I. O. Us On the Bourse.

QUEEN WILHELMINA IS VERY ANGRY.

Her Husband Must Make Good His Bachelor Extravagances Out of His Allowances—Money Lenders syndicate Their Claims.

London, April 22.—Dispatches received from Paris report trouble at the castle of Hetto over the bachelor debts of Prince Henry, the husband of Queen Wilhelmina of Holland.

It is said that shortly prior to his marriage Prince Henry promised his creditors in Berlin and Frankfurt to pay one-third of his debts within a month of the wedding, but the money has not been forthcoming, and the money lenders formally applied to Queen Wilhelmina. The latter declares her husband must pay his own debts out of the allowance made him by the state.

It is now intimated that the creditors have formed a syndicate and propose to negotiate the prince consort's paper on the Amsterdam bourse. Queen Wilhelmina is reported to be in a very angry mood.

The Black Diamond Ghost.

[Cynthiana Democrat.]

The Midway Clipper wants to know if the Lexington interurban electric railway is to be another Black Diamond affair. Our esteemed contemporary is evidently not well informed. The Black Diamond is equipped and in good running order, and for several months has been using the column rules of the Dover Messenger for tracks. The grades are easy, the bed solid and the ballast metal; but the nearest it has come to tidewater is in the drops from the rosette of a tin sprinkler with which the engineer wets down the papers.

Frost Artists Rare Geniuses.

[Exchange.]

Where lies the artistic genius which devises and traces the delicate frost patterns to be seen on a large plate glass window in the winter time? Why do such patterns always follow some general design on one window and an altogether different one on another window? Why is one pattern the most delicate and unique of Moorish fretwork, another a crystallized tracing of the most delicate lace, still another a grouping of wide leaved tropical plants, still another a miniature winter landscape, no two patterns ever alike and each more beautiful in design than anything man could do? Rare geniuses are these frost artists.

Women Who Work

Nine out of ten women are afflicted with some of the common ailments known as female diseases. Among women whose employment requires them to stand on their feet or sit in the same position all day, not one in twenty-five escape these troubles. The average feminine constitution cannot, unaided, withstand the strain to which steady, trying work subjects them. The organs of womanhood are so delicate and finely adjusted that the inevitable result of constant standing, lifting, stooping or straining is displacement of vital parts. The disorder is usually slight at first, but soon develops into irregular or painful menstruation, leucorrhoea or falling of the womb. Wine of Cardui is the right remedy for female weakness. As such it is offered to you. Wine of Cardui will not perform miracles, but it will, if taken as directed, insure painless and regular operation of the menstrual function. It will drive out every trace of leucorrhoea, and will so strengthen the ligaments that falling of the womb will be an impossibility. Don't you think it would pay you to try a medicine with such a record as that? You can get a \$1 bottle of Wine of Cardui at any drug store and use it in the privacy of your home.

WINE OF CARDUI

Townsend, Ga., May 18, 1899.

I have been in bad health with falling of the womb, weak back, nervousness and heart palpitation. At monthly periods I would be in bed suffering great pain. Lately I have been taking Wine of Cardui and Theodor's Black-Draught, and they have brought me wonderful relief. I have no pain, and do not stop work at the monthly period.
